GREENHOUSE

Growing disciples of Jesus through
New Worshipping Communities

SUPPORTING TEAMS TO START NEW THINGS IN YOUR PARISH

Just as a greenhouse creates the right conditions for young plants to flourish, Greenhouse creates the space for new approaches to church, mission and discipleship to take root and grow in our parishes.

God is calling our churches to new ways of growing disciples. You might be wondering what that could look like locally, or whether something you've already started can grow further.

The Church of England's Greenhouse programme offers you a place to explore and act on those questions together with other likeminded people – and there is no fee for you or your church to be a part of it.

GREENHOUSE OFFERS:

- Learning about new things we can do in our churches amongst people who feel similarly called
- Supporting diverse teams from parishes to explore their context and mission through gatherings and coaching
- Seed funding and additional learning through the national Greenhouse Network

For further information visit: churchofengland.org/greenhouse
and then speak to your diocesan office – your contact is:

or email the National Greenhouse Lead,
Jon Curtis: jon.curtis@churchofengland.org.
